## About **RELENT CAMPUS MANAGEMENT ERP SOFTWARE**

Unlike schools, colleges are having entirely different functionality, a good strength decides the long form functions & stability of any institute, thus also increases its administration work. Here we are with complete campus management software, to get an effortless data management solution. College is a vast campus, getting reports for their continuous evaluation is bulky effort in manual process.

Now, in Campus management software, just go on doing day to day entries, required MIS reports gets updated & viewed by management at different hierarchy from anywhere & at any given point of time.

A college degree is most important & need great attention in a student's life as the next step from the college is the door step of their future. Parents are more concerned about their children at this age.

Parent gets daily updates on their child's campus activities & performances, can get alerts on their absent marking & can take quick actions. The unique username & password allows parents to access the campus software from anywhere & at any given point of time, can view their child's progress report of current academics as well as previous results and much more.

Out of all our modules and its sub modules, majority Modules are used for Academic excellence, its improvements, analysis etc. and rest of the Modules are used for College Administration supporting modules.

Campus Management ERP Software is developed and serviced by Relent Software Technologies and its running successfully in many institutions in Kerala. Our top most clientele are Kannur University, Kozhikode University, M.G.University, Kerala University, etc.
